PARTNERSHIP BUILT ON SERVICE

The Stephen Siller Tunnel to Towers Foundation and The Home Depot have formed an extraordinary relationship and partnership over the years. United in “doing good” and the commitment to our veterans, we have been able to provide specially adapted *smart homes* to service members who have sacrificed so much for our country.

As our largest partner, The Home Depot Foundation is extremely instrumental in ensuring that the Stephen Siller Tunnel to Towers Foundation is able to continue our mission to provide a positive and lasting impact in the lives of our catastrophically injured service members.

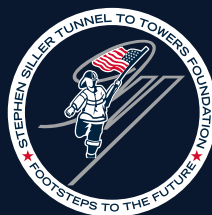

Together, we are changing lives.

THE FOOTSTEPS TO THE FUTURE ENDOWMENT

Our Foundation’s endowment ensures long-term continuity, sustainability and commitment to our mission. Since our inception in 2001, friends and supporters have enabled us to make a lasting impact in the lives of our veterans, first responders, children and neighbors in need.

Firefighter Stephen Siller sacrificed his life to save others on September 11, 2001. Our Foundation strives to emulate Stephen’s heroic spirit and follow in his footsteps by “doing good.”

It is an honor and privilege to do the important work we do. An endowment will ensure that we are able to fulfill our mission for years to come.

Stephen Siller Tunnel to Towers Foundation is recognized as a tax-exempt 501(c)(3) non-profit organization.
