Name: _____

NEVER FORGET

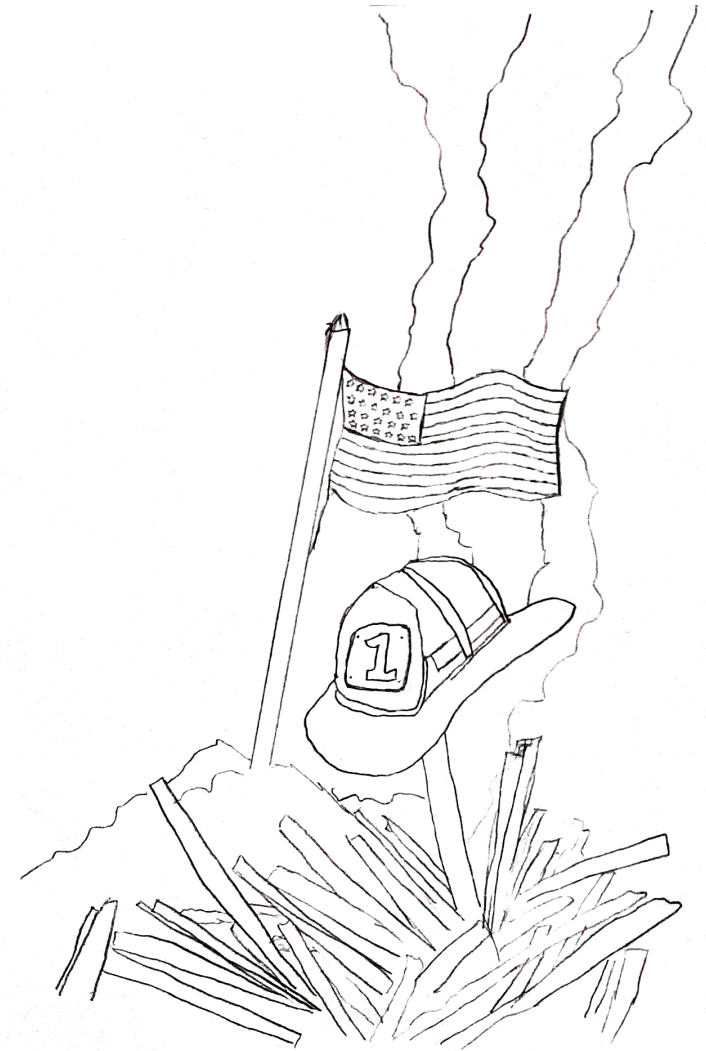

America and the world joined together in support against the evil attacks and promised to never forget.

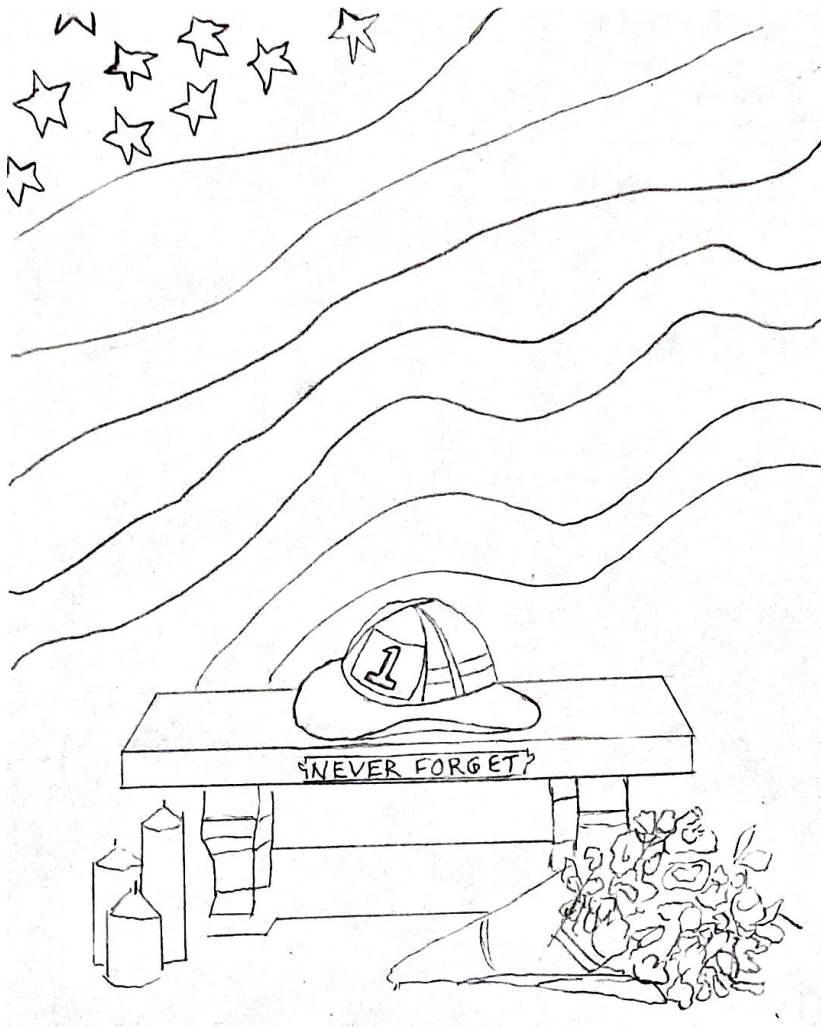

On September 11, 2001, America was attacked.

**Heroes, like police officers and firefighters,
rushed to help people.**

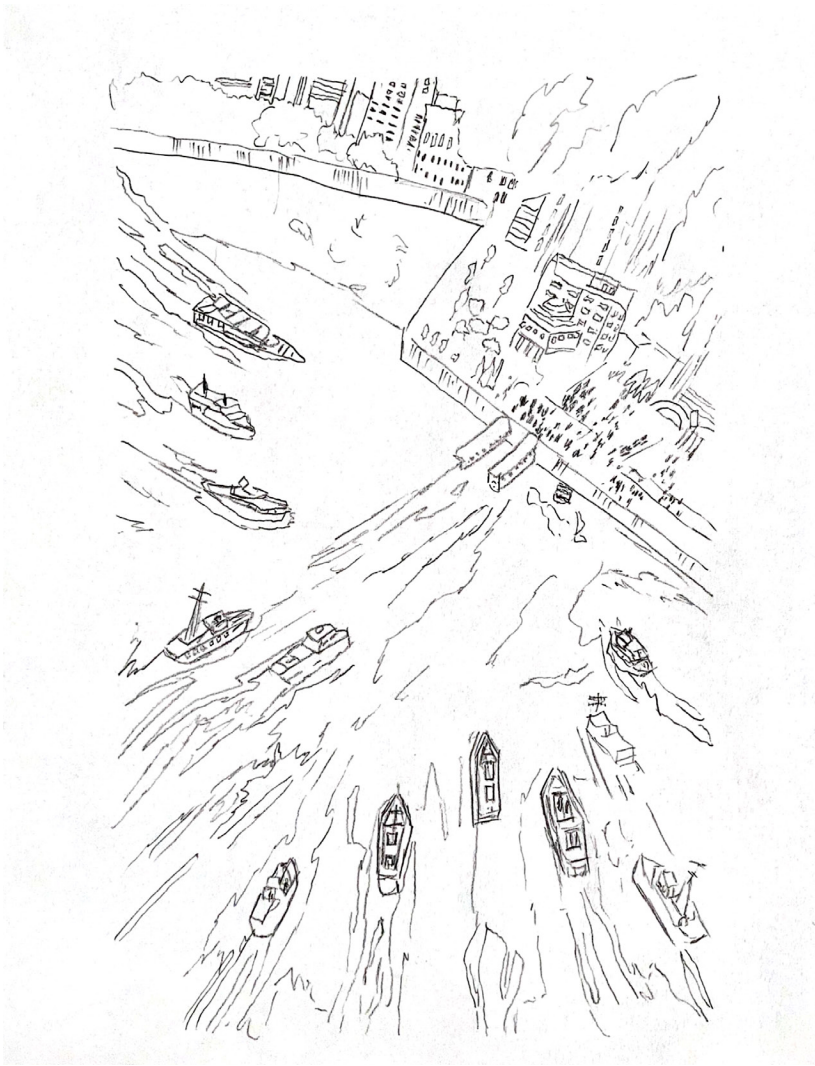

**While America was hurt on September 11, 2001, the
country and its people showed its strength and spirit.**

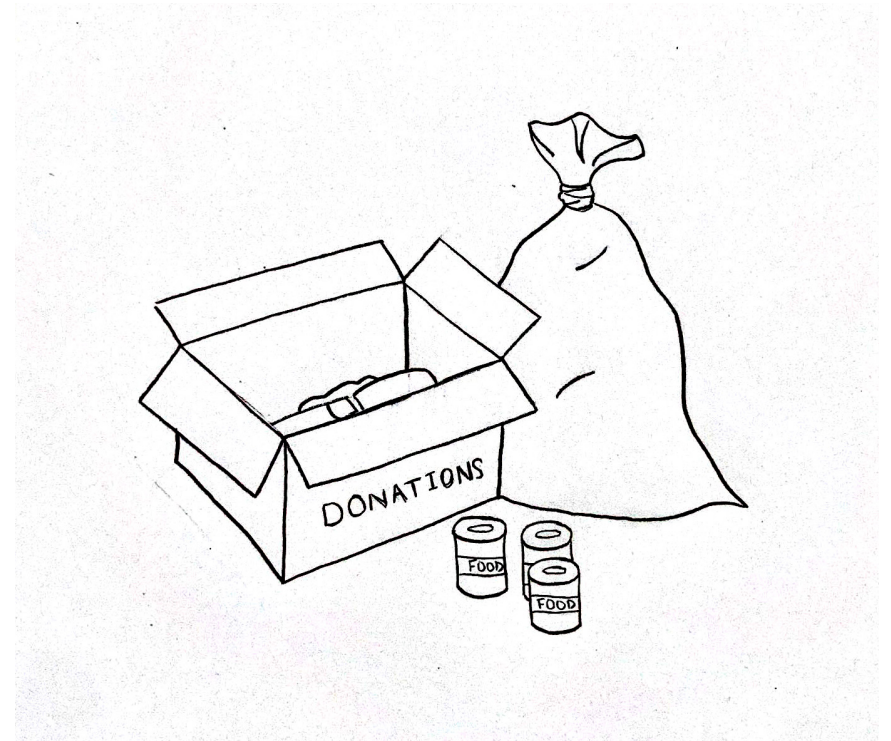

A lot of people lost their lives on September 11, 2001 and many people are dying and still sick from helping others that day.

Regular people became everyday heroes and helped one another in any way they could.

Everyday heroes used their boats to bring people to safety. More people were rescued by boat that day than in any other day in history.

People donated food, clothes and other things to help each other.
